MetalPremium UV Blanket – The First Choice for UV and UV-LED Printing

we're on it.

MetalPremium UV Blanket – The First Choice for UV and UV-LED Printing

Our MetalPremium UV Blanket offers excellent print quality with sharp printout and homogeneous solid areas – ideal for UV and UV-LED printing. A specially adapted surface and robust layer ensure high resistance and a long service life.

Your advantages at a glance:

- **Outstanding print quality:** sharp dots and extremely homogeneous solid areas
- **Consistent print quality:** consistent printing results and reduced blanket collapse
- **High resistance:** specially adapted EPDM surface against aggressive UV and UV-LED colours and detergents
- **Expertise:** benefit from the experience and know-how of the market leader in metal printing

Technical data

Item No.	B03527
Colour	Purple
Area of application	UV and UV-LED printing
Compatibility	MetalStar 4 MetalStar 3 MetalStar 2 Mailänder 283 Mailänder 280
Surface	ground and polished
Surface roughness (Ra)	0.6 µm
Hardness blanket (Shore A)	81°
Tear resistance	> 60 N/mm ²
Nominal thickness	1.95 mm

We would be pleased to send you an individual offer quoting an attractive price.
