Select Smart Works – the flexible service package

A smart decision

we're on it.

The right service at the right time – flexible & fair. A smart decision

In case of an on-site repair, our qualified service technicians take care of everything that is necessary to rectify the problem. Of course, further service works such as inspections of a printing or coating line, the scheduled fitting of spare parts or even a complete press overhaul can be called up flexibly at any time.

With the Select Smart Works package you receive the services you need, at the right time and at favorable rates.

Of course, all work is done by our experienced and qualified service technicians. For us, it is not simply a matter of replacing parts. Our objective is to ensure the longterm performance of your production lines.

With a Select Smart Works contract, you have access to our pool of qualified service technicians (electricians and mechanics). Each package covers the labour costs for a certain number of working hours, which can be called up flexibly over the contract period of 12 months.
