Hard cast cylinder package – Ultimate cast quality

The hard cast counter pressure cylinder plays a decisive role for the smooth functioning of a coating machine as well as for a constant production quality. In combination with our original scraper blades, it ensures that the backs of the coated sheets remain absolutely clean.

The original hard cast cylinder from Koenig & Bauer MetalPrint is manufactured in Germany, using a special material alloy for exceptional hardness. The surface is furthermore characterised by its extremely low average roughness, which serves to guarantee reliable and trouble-free production.

Take advantage of the special hard cast cylinder package and save money compared to the regular unit prices.

Koenig & Bauer MetalPrint now offers you the possibility to replace your old hard cast cylinder by a new, peak-condition cylinder – quickly, simply and at favourable rates.

Our special service package comprises

- an original Koenig & Bauer MetalPrint hard cast cylinder for coating machines
- 5 original Koenig & Bauer MetalPrint scraper blades in high quality finish for longest service life
- corresponding bearings and small parts

Our recommendation

For easy, fast and safe exchange of the hard cast cylinder always use the original Koenig & Bauer mounting device.

Item No.	Suitable equipment
A91332	for coating machines 431, 460
A91333	for coating machines 4040, 470, 480, 483, 490
A91334	for coating machines 4040, 470, 480, 483, 490 including mounting device

Original Koenig & Bauer MetalPrint scraper blades in high quality finish are now also available at very beneficial rates:

Item No.	Description
A30040	Original Koenig & Bauer scraper blades for coating machines 431 and 460, in high quality finish
14185	Original Koenig & Bauer scraper blades for coating machines 4040, 470, 480, 483, 490, in high quality finish

Upon request, installation of the hard cast cylinder can be performed by a qualified service technician from Koenig & Bauer. The labour, travel and accommodation costs, as well as daily travel allowances for the technician, will be charged separately as incurred.
