MetalPremium UV Coating Blanket – Our Blanket for UV and UV-LED Coating

we're on it.

MetalPremium UV Coating Blanket – Our Blanket for UV and UV-LED Coating

The MetalPremium UV Coating Blanket is ideal for use in MetalStar 3 and MetalStar 4 coating towers. Our coating blanket is characterised by a high level of gloss combined with a high level of coating application. It is reusable and therefore very cost-effective.

Your advantages at a glance:

- **Excellent coating quality:** high level of gloss combined with a high level of coating application
- **Stable register:** very high dimensional stability thanks to the polyester base ensures perfect register
- **High resistance:** high durability against swelling caused by UV and UV-LED coatings and detergents
- **Saves money:** reusable for repeat jobs
- **Easy stripping:** consistent peel strength and easy peeling
- **Expertise:** benefit from the experience and know-how of the market leader in metal printing

Technical data

Item No.	B03392
Colour	Blue
Area of application	UV and UV-LED printing
Compatibility	MetalStar 4 coating tower MetalStar 3 coating tower
Surface roughness (Ra)	0.8 +/-0.15 µm
Total hardness (Shore A)	75°
Thickness	1.15 +/-0.05 mm
