

Flexo Scraping System

For Mailänder type 460 coating machine

Reducing your set-up times!

The scraper blade is fixed into a quick clamp assembly which guarantees the fast replacement of a worn-out scraper blade. While production is running, the new blade can be fitted into the quick clamp support, which can be then inserted rapidly into the Flexo Scraping System blade holder during the next line stoppage.

Existing scraper blades can be reused following modification.

The advantages	Your benefit
<ul style="list-style-type: none"> ▪ Rapid scraper blade replacement 	<ul style="list-style-type: none"> ▪ Time saving – higher productivity by minimization of set-up times
<ul style="list-style-type: none"> ▪ Considerably longer blade life 	<ul style="list-style-type: none"> ▪ Greater line availability and lower spare parts costs
<ul style="list-style-type: none"> ▪ Faster bedding-in of the scraper blade 	<ul style="list-style-type: none"> ▪ Shorter production start time
<ul style="list-style-type: none"> ▪ Reduced adjustment time 	<ul style="list-style-type: none"> ▪ Simplified operation

Depending on the technical configuration of your equipment we can offer a comprehensive consultation service. We will be pleased to supply you with a quotation tailored to your specific needs. Please feel free to contact us.
