

Pneumatic sheet separator

For MetalStar 2

Greater production reliability through enhanced sheet transportation!

The incoming sheet is lifted by a timed air pulse which ensures a smooth, virtually contactfree separation from the following sheet.

The upgrade kit consists of pneumatic parts and integrating software, and can be retrofitted within one day. This upgrade is already being used by many customers, and has proved to be highly successful.

This upgrade is suitable for all MetalStar 2 type presses.

The advantages	Your benefit
<ul style="list-style-type: none"> Stable transportation of scroll, rectangular and aluminium sheets 	<ul style="list-style-type: none"> High degree of production flexibility
<ul style="list-style-type: none"> No damage to the sheets – low waste 	<ul style="list-style-type: none"> Reduced costs
<ul style="list-style-type: none"> Simple handling 	<ul style="list-style-type: none"> Less adjustment required

Depending on the technical configuration of your equipment we can offer a comprehensive consultation service. We will be pleased to supply you with a quotation tailored to your specific needs. Please feel free to contact us.
