

UPGRADE 2.2

 KBA-MetalPrint

Pneumatic Printing Cylinder Pressure on-/off switching

METALWING and METALSTAR 1

Combine printing quality with production security!

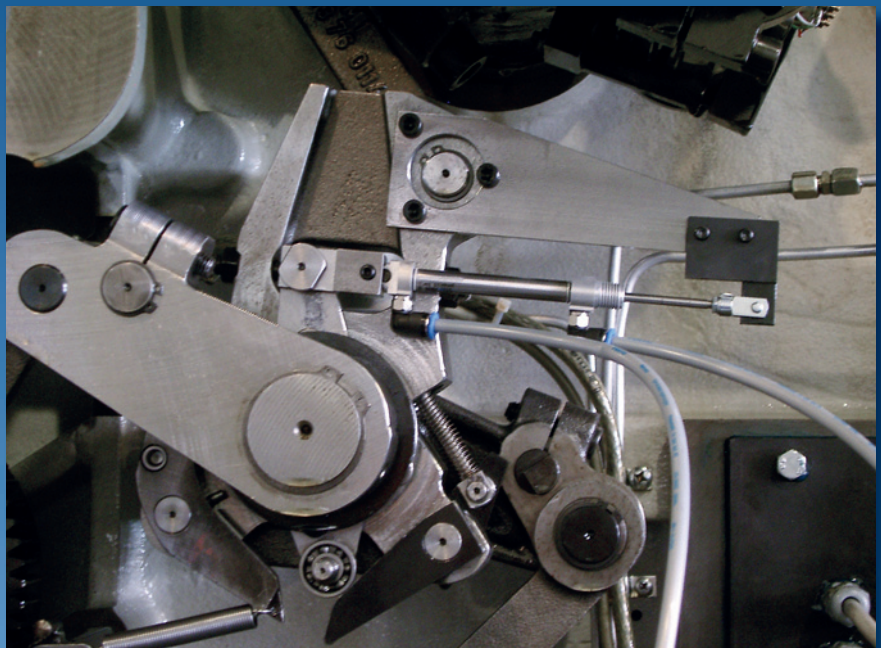

The Advantages

- Simple and secure function
- Exact synchronisation of the printing cylinder on/off switching

Your Benefit

- Highest production security
- Minimization of downtimes
- Increase of printing quality
- Spoilage minimization

The traditional electro-magnetic on-/off pressure switching of the printing cylinder is replaced by a pneumatic cylinder ensuring reliable synchronisation, constantly high printing quality and security of production.

Depending on the technical configuration of your equipment, we can offer a comprehensive consultancy service which will include supplying you with a quotation specifically tailored to your needs.
