

# UPGRADE 3.5

## Feeder sheet separation

For all Sprint multi-colour printing machines

### Production security through enhanced sheet transportation!

The incoming sheet is lifted by a timed air pulse which ensures a smooth, virtually contactfree separation from the following sheet.

The upgrade kit consists in the basic pneumatic parts and integrating software and may be retrofitted over one day.

The advantages	Your benefit
<ul style="list-style-type: none"> <li>For both scroll and rectangular sheets</li> </ul>	<ul style="list-style-type: none"> <li>Highest flexibility with no change-over time</li> </ul>
<ul style="list-style-type: none"> <li>Positive sheet control with no sheet damage</li> </ul>	<ul style="list-style-type: none"> <li>Consistent levels of production without spoilage giving satisfied customers</li> <li>Higher quality</li> </ul>
<ul style="list-style-type: none"> <li>Maintenance free</li> </ul>	<ul style="list-style-type: none"> <li>Reduced production costs – assembly and forget</li> </ul>
<ul style="list-style-type: none"> <li>Less adjustment required</li> </ul>	<ul style="list-style-type: none"> <li>Ease of operation</li> </ul>

Depending on the technical configuration of your equipment we can offer a comprehensive consultation service. We will be pleased to supply you with a quotation tailored to your specific needs. Please feel free to contact us.
