

Smooth transition loading ramp

For LTG loading machines

Optimise your sheet transport!

KBA-MetalPrint is offering a redesigned ramp kit for the loading machine of the wicket conveyor. This kit provides smooth damage free transition of the sheets from the pick up point into the LTG oven. The simple and precise adjustability of the ramps allows fine tuning of the transportation elements in front of the oven.

Suitable for all LTG drying ovens.

Upon request.

The advantages	Your benefit
<ul style="list-style-type: none"> Smooth transition with large wickets angles 	<ul style="list-style-type: none"> Higher production efficiency
<ul style="list-style-type: none"> No sheet contact with adjacent wicket 	<ul style="list-style-type: none"> Improved quality
<ul style="list-style-type: none"> No scratches or wicket marks on the sheets 	<ul style="list-style-type: none"> Increased quality Reduced spoilage costs
<ul style="list-style-type: none"> Easily adjusted 	<ul style="list-style-type: none"> Time saving – higher productivity
<ul style="list-style-type: none"> Superior handling of lightweight sheets 	<ul style="list-style-type: none"> Higher production flexibility

Depending on the technical configuration of your equipment we can offer a comprehensive consultation service. We will be pleased to supply you with a quotation tailored to your specific needs. Please feel free to contact us.
