

# Vacuum sheet accelerator

## For LTG unloading machines

### Increase efficiency and quality!

The vacuum sheet accelerator provides precise, controlled, slippage free sheet transfer through the oven unloading machine ensuring that the sheets are accelerated to the correct line velocity. Even at high speeds, the sheet will be held in position by the specially developed vacuum conveyor system which employs the latest belt material resulting in very low maintenance.

Suitable for all LTG drying ovens.

Upon request.

The advantages	Your benefit
<ul style="list-style-type: none"> <li>Slippage free acceleration of the sheets</li> </ul>	<ul style="list-style-type: none"> <li>Higher production efficiency</li> </ul>
<ul style="list-style-type: none"> <li>Precise sheet positioning</li> </ul>	<ul style="list-style-type: none"> <li>Increased quality</li> </ul>
<ul style="list-style-type: none"> <li>No sheet scratching or edge damage</li> </ul>	<ul style="list-style-type: none"> <li>Increased quality</li> <li>Reduced spoilage costs</li> </ul>
<ul style="list-style-type: none"> <li>Suitable for all materials and sheet sizes including scrolled plate</li> </ul>	<ul style="list-style-type: none"> <li>Greater production flexibility</li> </ul>
<ul style="list-style-type: none"> <li>Increased production speeds even with heavyweight plate</li> </ul>	<ul style="list-style-type: none"> <li>Saving of time – increased productivity</li> </ul>

Depending on the technical configuration of your equipment we can offer a comprehensive consultation service. We will be pleased to supply you with a quotation tailored to your specific needs. Please feel free to contact us.
